GENERAL INFORMATION AND SUMMARY OF GRANTEE RESPONSIBILITIES
--

Responsibility for Grant Administration:

The local government is responsible for the proper use and administration of the CDBG funds regardless who ultimately benefits from the use of the CDBG funds. Grant agreements are between the state and the local government, and therefore, the local government is the grantee.

Release of Funds:

Prospective applicants and grant recipients should take special note that in all cases per 24 CFR Part 58.22(a-d) CDBG funds and non-CDBG funds cannot be obligated or expended until the environmental review process has been completed and accepted by the Wyoming Business Council (WBC). 24 CFR Part 58.22(a-d) reads:

- (a) *Neither a recipient nor any participant in the development process including public or private nonprofit or for-profit entities, or any of their contractors may commit HUD assistance under a program listed in Section 58.1(b) on an activity or project until HUD or the state has approved the recipient's RROF and the related certification from the responsible entity. In addition until the RROF and the related certification have been approved neither a recipient nor any participant in the development process may commit non-HUD funds on or undertake an activity or project under a program listed in Section 58.1(b) if the activity or project would have an adverse environmental impact or limit the choice of reasonable alternatives.*
- (b) *If a project or activity is exempt under section 58.34 or is categorically excluded (except in extraordinary circumstances) under Section 58.35(b) no RROF is required and the recipient may undertake the activity immediately after the responsible entity has documented its determination as required in Section 58.34(b) and Section 58.35(d), but the recipient must comply with applicable requirements under section 58.6.*
- (c) *If a percipient is considering an application from a prospective subrecipient or beneficiary and is aware that the prospective subrecipient or beneficiary is about to take an action within the jurisdiction of the recipient that is prohibited by paragraph (a) of this Section, then the recipient will take appropriate action to ensure that the objectives and procedures of NEPA are achieved.*
- (d) *An option agreement on a proposed site or property is allowable prior to the completion of the environmental review if the agreement is subject to a determination by the recipient on the desirability of the property for the project as a result of the completion of the environmental review in accordance with this part and the cost of the option is a nominal portion of the purchase price. There is no constraint on the purchase of an option by third parties that have not been selected for HUD funding, have no responsibility for the environmental review*

and have no say in the approval or disapproval of the project.

Until the required environmental review is completed and approved by the Wyoming Business Council, and a formal grant agreement is completed, signed and returned to the state by the grantee, funds for the project cannot be committed or expended. **Funds committed or expended before the signing of a grant agreement will be determined to be ineligible for reimbursement. Signing of a contract with a consultant or a construction contractor is considered a commitment of funds.**

Federal Requirements:

If selected for funding, a grantee must agree to comply with all applicable federal laws and regulations. The following is a list of the major requirements that apply to projects using CDBG funds. They cover a wide range of issues including environmental impacts, labor standards, financial procedures, and civil rights.
