Subgrantee Name	Mountain West Technologies Corporations
Project Location	Northwest Casper
Project Description	This CPF grant would enable us to serve Hanna, Rock River, and Medicine Bow, Wyoming, and extend our Black Widow project near Casper and Mills, Wyoming. In total, we would build more than 20 miles of fiber to serve 637 underserved locations. We recognize the value of collaboration between the private sector and government and are proud to participate in the Connect Wyoming program. Expanding our fiber network through out the state would allow us to transition existing wireless customers to a more reliable connection built to meet their future needs. It would also allow us to serve new locations beyond the reach of our wireless network. By extending our reach into rural neighborhoods and towns, we would help ensure these communities have the connectivity they need to access economic opportunities, stay socially connected, and participate fully in the wider world.
