Funds Planning: There are five types of planning grants available:

1. Economic Development plans. Maximum amount \$50,000. These are plans that address the community as a whole and identify potential future economic development opportunities and further develop a community's economic development strategy. (This is not intended to be used for community development plans such as land use plans, zoning plans, etc.) The plan, if implemented, will potentially lead to the creation of new primary jobs and/or retention of existing primary jobs. The plan will also address sources of funding to implement the plan.
2. Feasibility Studies. Maximum amount \$25,000. These are site specific or industry specific plans must determine the feasibility of a project or plan for a project that addresses an economic development objective. The plan, if implemented, will potentially lead to the creation of new primary jobs and/or retention of existing primary jobs. The plan will also address sources of funding to implement the plan.
3. Promotional Plans. Maximum amount \$25,000. These are plans that specifically address the promotion of a community's economic development asset(s). Examples would be branding or downtown development. The plan, if implemented, will potentially lead to the creation of new jobs and/or retention of existing jobs. The plan will also address sources of funding to implement the plan.
4. Tourism Plans. Maximum amount \$25,000. These are plans that address economic development opportunities for a defined region or community that specifically focuses on the tourism and hospitality industry. The plan, if implemented, will potentially lead to increased visitation to the destination, which would in turn, increase local sales and lodging tax collections to add to the local economy. The plan will also address sources of funding to implement the plan.
5. Regional Targeted Industry Plans. Maximum amount \$50,000. These are plans that encompass a defined region and potential

targeted industries for economic development growth. The plan, if implemented, will potentially lead to the creation of new primary jobs and/or retention of existing primary jobs. The plan will also address sources of funding to implement the plan.
