- (C) The collateral offered to secure the loan or the loan guarantee, including documentation establishing that the collateral is the property of the applicant and is unencumbered with any other financing or an indication that any such financing will be paid off with proceeds from the loan or the financing obtained in connection with the loan guarantee;
- (D) The proposed term of financing, including loan amount, term of the loan, amortization, interest rate, and/or private bank participation; and
- (E) Any other information reasonably necessary to inform the Wyoming Business Council staff about the project to be financed, the nature of which may vary depending upon the type of business and facilities at issue;
- (iv) Tab D A comprehensive chart and detailed description identifying all business entities related to the applicant, whether by contract or through corporate affiliations;
- (v) Tab E The applicant's financial records for five (5) years or the life of the applicant, whichever is less, including tax returns;
- (vi) Tab F A balance sheet and projected cash flow for the project for the anticipated term of the loan or loan guarantee evidencing the applicant's ability to repay the loan or the financing guaranteed by the loan guarantee on or prior to maturity;
- (vii) Tab G Existing short-term and long-term financing for property associated with the project to be financed through the loan or loan guarantee;
- (x) Tab H Records concerning the environmental compliance with the applicable environmental regulations of facilities and underlying real property associated with the project and completion of an environmental questionnaire provided by the Wyoming Business Council staff with regards to such property which will serve as collateral. If the environmental questionnaire indicates any environmental problems with the property, then further due diligence may be required, such as a Phase 1 and possibly Phase 2 environmental report;
- (xi) Tab I Notice and identification of any threatened or pending litigation involving the anticipated project or property offered as collateral and/or the applicant (or such entity that will be the borrower) and any guarantor as provided in Section 7(j) below;
- (xii) Tab J Industry-specific information and documentation concerning the applicant's business activities within that industry, including without limitation, regulatory information related to the project to be undertaken; and
- (xiii) Tab K Any relevant ongoing or new information that arises any time after applicant's initial submission of the above information which may influence or bear upon the review of the proposed loan or loan guarantee, including without limitation, new or altered

financing arrangements, statutory, rule or regulatory changes which may impact applicant's project or operations or the proposal thereof, or changes in ownership.

- (b) Additional information. In addition to information in the project application, the Wyoming Business Council staff may ask for additional information necessary for the Wyoming Business Council staff to conduct its due diligence and review of the project. Applicants shall respond to such requests in a timely manner with complete and current information. Any documents, materials or information provided to Council staff in connection with its review of the loan or loan guarantee may be shared with any other State agency, including without limitation, the Governor's Office, the Wyoming State Treasurer's Office, and the Wyoming Attorney General's Office. Applicant shall also provide updated information pertinent to the comprehensive information required in Section 4(a)(i)–(xiii) of this Chapter should any of that information change at any point during the application process.
- (c) Collateral. Based on the appraisals and information provided by the applicant for the collateral securing the loan or loan guarantee, Council staff shall determine if such collateral is adequate based on the requirements of W.S. 9-12-308. Council staff shall secure a first security interest in the entire project which is the subject of the financing and must approve any subsequent financing which is to exist at the time of closing or which applicant enters into after closing of the loan or loan guarantee. If the applicant shows good cause why the applicant cannot grant the State a first security interest in the entire project, then the applicant must propose substitute collateral which Council staff deems to be sufficient to repay the loan or loan guarantee in the case of a default and in which the Council's interest is before the interest of any and all other lenders in such substitute collateral (if such other lenders have been previously approved by the Council as provided in Section 7(b) of this Chapter).
- (d) Value of collateral. Loans or loan guarantees shall be adequately collateralized, such that Council staff may obtain appraisals to assess the value of existing facilities, collateral, and other real or personal property used as collateral.

(i) LTV Table

Loan Category	Loan-to-Value Limit (percent)
Raw Land	65
Land Development	75
Construction	75
Commercial, Multifamily, and other non-residential	80

1- to 4-family residential	85
Improved Property	85
Equipment	80

(e) Fee and Experts. The Council shall charge the applicant a loan origination fee or loan guarantee fee in the amount of one percent (1%) of the total loan or guaranteed loan amount. This fee shall be used to pay for the costs of any experts hired by Council staff to aid in conducting the due diligence of the project, including, without limitation, appraisers, accountants, environmental engineers and attorneys. If the cost of such experts exceeds the amount of the origination or guarantee fee, then the applicant shall pay any such excess costs. Regardless whether the applicant closes on the loan or loan guarantee, the applicant shall pay for, or reimburse the State for, all costs incurred by the Council to review the project and the loan or loan guarantee and to conduct the due diligence necessary for such review, including, without limitation, the costs of such experts.

Section 5. Program Review and Approval Process; Due Diligence; Closing.

- (a) Steps of process. The steps necessary to obtain approval of a loan or loan guarantee under the large project program are as follows:
- (i) The applicant shall first submit five (5) copies of the complete project application to Council staff, including materials required by Council staff in addition to those items described in Section 4(a) of this Chapter for review.
- (ii) After receiving an application, Council staff shall review the project application to ensure completeness under Section 4(a) of this Chapter. Once Council staff ascertain that a submitted application is complete, Council staff shall deliver one (1) copy each of the project application to the Governor or his designee, to the State Treasurer or his designee and to the Wyoming Attorney General's Office. The remaining two (2) copies shall be retained at the Council's main office.
- (iii) Council staff shall next review the project application under the process set forth in W.S. 9-12-601 through W.S. 9-12-603. Within sixty (60) calendar days of receipt of a complete application, Council staff and participants (if applicable) shall present the project, the proposed loan or loan guarantee, and its terms to the Loan Review Committee. The Loan Review Committee shall adopt a recommendation and may accept or deny the proposed loan or amend its terms in that recommendation.
- (iv) Council staff shall provide electronic notice to all Wyoming financial institutions of the recommended loan terms and shall allow not less than fifteen (15) business

days to respond with expressions of interest relating to participation. If multiple financial institutions express interest in participating in the proposed loan, council staff shall share proposed terms with the applicant. The applicant shall choose from the provided proposals, and Council staff shall notify the interested financial institutions of the applicant's choice for participation.

- (v) Following the favorable recommendation of the Loan Review Committee, the project shall be submitted to the Board of Directors for a vote to accept or reject that recommendation at the next scheduled Board of Directors meeting.
- (vi) Upon the recommendation by the Board of Directors, the Wyoming Business Council shall forward its recommendation to the Wyoming State Loan and Investment Board at the next available meeting for its final approval, or rejection, of the loan or loan guarantee.
- (vii) If the Wyoming State Loan and Investment Board grants final approval of the application, the application shall return to Council staff to close the loan or loan guarantee in conjunction with participating financial institution(s), if applicable.
- (b) Information review. Nothing in these rules shall be interpreted to prevent the Governor or his designee, the State Treasurer or his designee, the Council, the Loan Review Committee or the Wyoming State Loan and Investment Board from evaluating or reviewing any and all other relevant information when that information is available.
- (c) Final agency action is subject to judicial review of administrative action under Wyoming Statute Ann. 16-3-114 and Rule 12 of the Wyoming Rules of Appellate Procedure.
- (d) Material change or new information. After the Wyoming State Loan and Investment Board's final approval of the loan or loan guarantee, the Wyoming Business Council staff may request from the applicant any materials or information the Wyoming Business Council staff deems necessary to close the loan or loan guarantee. If, after the Wyoming State Loan and Investment Board's final approval of the loan or loan guarantee, new information is revealed that Council staff reasonably determines should have been provided, or Council staff determines that previously provided material information is no longer accurate or sufficient, the Council shall not allow the loan or loan guarantee to proceed to closing, and the applicant shall be required to reapply under Section 5(a) above if the applicant desires to proceed with the loan or loan guarantee.
- (e) Attorney General's opinion. No loan or loan guarantee shall be made until Attorney General's Office provides a written opinion certifying the legality of the transaction and all documents connected therewith, including without limitation, the Financing Agreement and the Mortgage or any other document which creates a security interest in the applicant's property in favor of the Council.

(f) Closing. The applicant is required to close the loan or loan guarantee with Council staff within twelve (12) months of the final approval of the Wyoming State Loan and Investment Board. The applicant may request an extension of the closing deadline in writing and shall demonstrate good cause why the deadline should not apply and why a new deadline should be set. The Board of Directors may agree to extend the closing deadline, but in no event shall the Council provide an extension which would allow the loan or loan guarantee to close more than two (2) years after the final approval of the Wyoming State Loan and Investment Board without resubmitting the request for the loan or the loan guarantee. If greater than two (2) years has passed or would pass between the date of final approval and the closing, the applicant shall resubmit the application for approval.

Section 6. Determination of Eligibility.

- (a) Eligible projects and expenses. Eligible projects shall consist of an applicant's prospectively planned and well-defined business endeavor, and the project shall have a set beginning and completion date. A loan or loan guarantee issued pursuant to this Chapter shall not be used to fund past business or past construction expenditures. Expenses eligible for reimbursement from loan proceeds following execution of applicable loan or loan guarantee documents shall relate back no earlier than the submission of the request for the loan or loan guarantee to Council staff. Financing issued under this Chapter shall not primarily serve as a refinance mechanism or otherwise serve to substitute the loan or loan guarantee for an applicant's current lenders.
- (b) Examples of eligible projects. The following economic development projects, to the extent they otherwise satisfy the criteria set forth in W.S. 9-12-308 and these rules, may be eligible for large project fund financing:
 - (i) Manufacturing, fabrication or other industrial production facilities;
 - (ii) Agricultural development or food processing;
 - (iii) Development of, or improved utilization of, natural resources;
- (iv) Research and development projects that will add economic value to goods, services or resources within or outside the State;
 - (v) Destination facilities, other than retail or food service businesses;
 - (vi) Product distribution and/or warehousing facilities;
 - (vii) Transportation or freight facilities;
- (viii) Scientific testing including, but not limited to, medical, clinical or engineering testing services;

- (ix) Utilities;
- (x) Facilities associated with the management of waste; and
- (xi) Other activities that represent a new technology or type of economic enterprise.
- (c) Large project. All loans and loan guarantees issued under this large project program must meet the requirements of a large project as described in W.S. 9-12-308(b). In addition, for a loan or loan guarantee to be eligible for the large project program, project costs must exceed \$5,000,000. If the character, scope or size of the project changes at any time after its approval by the Wyoming State Loan and Investment Board, the project shall be resubmitted for approval as revised or modified.
- (d) Non-disclosed litigation or threats of litigation. A request for a loan or loan guarantee made under this Chapter shall be ineligible if pending litigation or threats of litigation are not disclosed with the project application or immediately thereafter.
- (e) Twelve-Month deadline. A submission shall become ineligible for a loan or loan guarantee under this Chapter if the applicant is unable to close, or if the applicant is unable to obtain a written extension from the Board of Directors, on all loan or loan guarantee documents with the Council within the twelve (12) month closing deadline set forth in Section 5(f) of this Chapter.

Section 7. Risk Analysis.

- (a) Interest rate. The interest rate for any loan under this program shall be consistent with Wall Street Journal Prime (WSJP) as of the date of the application with a floor of WSJP minus one percent (1%) and a ceiling of WSJP plus seven percent (7%). The interest rate shall be proposed by Council staff to the loan review committee for approval, and State Land and Investment Board for approval, after considering applicable risk factors and the economic impact of the project.
- (b) Subordinate financing. The loan or loan guarantee documents shall require that the State maintain a first priority lien on all collateral, and no collateral securing the loan or loan guarantee may be used to obtain subordinate financing without the written consent of the Council.
- (c) Insurance requirements. Insurance requirements shall vary based on the type of project which is the subject of the loan or loan guarantee but, at a minimum, general liability and property insurance shall be required in amounts and with terms that are acceptable Council staff naming the State as a lien holder. At the discretion of Council staff, other types of insurance may be required based on the type of project being financed and/or the property that serves as collateral for the loan or loan guarantee, such as business interruption, flood, earthquake, or other

insurance class as applicable.

- (d) Financial covenants. Council staff may require that the loan or loan guarantee documents include financial covenants with which the applicant must comply for the term of the loan or loan guarantee. Such covenants may include standards relating to debt service coverage, debt limitations, net worth, leverage, interest coverage or any other financial metrics determined by Council staff necessary to ensure the strength and performance of the applicant.
- (e) Acceleration upon closure of Wyoming facility or applicant's relocation outside the State. The loan documents may provide that, if the applicant closes the facility or operation that is the subject of the loan or loan guarantee or relocate such facility or operation outside the State of Wyoming prior to maturity of the loan or the applicant's actions indicate that applicant intends to so close or relocate the facility or operation, the outstanding balance of the loan shall be immediately due and payable including all interest accrued to the date of such payment and any and all fees and expenses due and owing. If the State has guaranteed financing pursuant to this Chapter, the guarantee documents shall provide that the guarantee shall terminate immediately and irrevocably as of the decision to close, or relocate the facility or operation or the commencement of any actions indicating a future closure or relocation.
- (f) Commencement of project. The loan documents shall require that the applicant commence construction of the project within one (1) year after closing of the loan or loan guarantee. If the applicant fails to commence construction within that time, the outstanding balance of the loan shall become immediately due and payable, including all interest accrued to the date of such payment and any and all fees and expenses due and owing. If the State has guaranteed financing pursuant to this Chapter, the guarantee documents shall provide that the guarantee shall terminate immediately and irrevocably after one (1) year if construction of the project has not commenced.
- (g) Other covenants. Council staff may include terms in the documents for the loan or loan guarantee to protect the State's interest, such as:
 - (i) Escrow accounts;
 - (ii) Cash sweeps;
 - (iii) Pledge rights;
 - (iv) Corporate approval rights;
- (v) Acceleration rights for facility closure, failure to meet job creation and tax base requirements and failure to continue to satisfy any requirements necessary to qualify for eligibility for the large project program; and
 - (vi) Other mechanisms Council staff deems appropriate.

- (h) Private funds. Prior to closing a loan or loan guarantee, an applicant must certify to Council staff that the applicant has committed private funds from funding sources not provided by the state of Wyoming in an amount which is at least twenty-five percent (25%) of the total cost of the project and that such private funds may be spent on eligible project costs which may include, but are not limited to, buildings, equipment, and direct project infrastructure. Council staff may require additional information, documentation, escrow of funds, implementation of processes and procedures or any other reasonable materials or terms, to evidence this commitment of private funds.
- (j) Guarantees by affiliates. Council staff may determine that, upon examination and review of applicant's due diligence materials and the proposed collateral for the loan or loan guarantee, additional collateral in the form of loan guarantees from affiliates of the applicant may be necessary to provide sufficient security to the State for repayment of the loan or loan guarantee.

Section 8. Post-closing.

- (a) Subsequent requirements. Council staff shall continue to monitor the loan or loan guarantee after the closing. The documents shall contain periodic reporting and compliance requirements that the applicant shall be required to satisfy. Each recipient shall provide to Council staff an annual progress report updating the status of the project being financed by the loan or loan guarantee. These reporting and compliance requirements may additionally include, but are not limited to:
 - (i) An as-built survey;
 - (ii) Notification of other debt(s);
 - (iii) Annual financial statements;
 - (iv) Copies of tax returns;
- (v) A report of the number and types of jobs created due to the project financed under this Chapter;
 - (vi) Property valuation of the project for property tax purposes; and
 - (vii) Notice of any regulatory violations.
- (b) Subsequent disbursements. Loan proceeds will be disbursed only after project expenses have been incurred and/or documented. Each recipient shall provide a disbursement request to Council staff prior to closing for loan proceeds to be disbursed at closing, and loan proceeds shall be disbursed only for expenses related to the project and incurred and/or documented after the date applicant first submitted the project to Council staff for preliminary recommendations. Any loan proceeds which are not disbursed on the day of closing will be held

by the Council until applicant submits a disbursement request and proof of eligible expenses as shall be provided in the loan documents and approved by Council staff.

Section 9. Confidentiality. Information and any other documentation submitted in support of a request for a loan or loan guarantee pursuant to the large project program, once submitted to a State agency or official, shall be governed by the Public Records Act, W.S. 16-4-201 through 205, as amended. Upon receipt of a request to disclose an application for a loan or loan guarantee or supporting information, the Council shall make a determination as to whether the information must be disclosed pursuant to that Act. The Council, before it makes said determination or discloses an applicant's information, shall inform the applicant of its determination. Should the applicant object to the disclosure of any record the Council has determined must be disclosed under the Act, the applicant shall justify its request to withhold records under the Act or any other authority to the Council in writing. The Council shall not disclose said information if disclosure is likely to result in the impairment of the government's future ability to obtain necessary information and/or result in substantial harm to the competitive position of the recipient that provided the information to the Council.

GENERAL POLICY

1.1 Introduction

Loan standards and procedures that are uniform throughout the Wyoming Business Council (WBC) are necessary for quality control to ensure good, consistent service to our borrowers, and fiduciary responsibility to the State of Wyoming and the Federal Government. Uniform standards will allow the WBC to be familiar with the normal requirements for each type of loan in our portfolio.

The Board of Directors, in making loans and providing direction to other WBC personnel and Service Organizations engaged in the preparation, administration and safekeeping of loan documents, shall be guided by the following Loan Policy and Standards as adopted by the Board of Directors.

The basic loan policy of the WBC is to provide financing to business entities and communities in the State of Wyoming in an effort to promote economic development within the state and to service the loan portfolio in a responsible manner. Financing provided by the WBC is intended to be an alternative and/or complement to existing commercial financing sources that are available, not as the primary lending source

The provision of finance at below-market interest rates, when viewed in terms of a risk adjusted return basis, should be done only when necessary to assist or encourage business.

The Board of Directors realizes the lending of money by the WBC includes some business risk and some losses are to be expected. It is the policy of this Board of Directors to maintain a reserve for future loan losses. Loans, with the approval of the Board of Directors, may be charged off only after such loans have received maximum collection effort.

1.2 Loans Not Considered Desirable

The following loans are not considered desirable for the purpose of the WBC. Such loans will ordinarily be declined unless specifically approved by the Board for reasons that justify an exception to this policy.

- (1) Loans that do not promote economic development within the State of Wyoming.
- (2) Real estate mortgage loans secured by proceeds of the settlement of an estate, unless these loans are fully collateralized or guaranteed by the estate and approved by the WBC's attorney.
- (3) Loans secured by stock in a closed corporation which has no ready market.
- (4) Loans secured by restricted or lettered stock.
- (5) Capital loans to a business enterprise in which the loan cannot be repaid within a reasonable period except by borrowing elsewhere or by liquidating the business.
- (6) Unsecured loans.

1.3 Appraisal Program for Loans Involving Real Estate

Appraisals shall be performed by a qualified, independent, fee paid appraiser selected by the WBC or lead lender who is competent and knowledgeable of the relevant markets. The WBC does not favor appraisers from one or more councils or exclude individuals based on their lack of such membership. The appraisal policy will be based on compliance with Part 323 of Federal

Deposit Insurance Corporation Rules and Regulations. This regulation identifies which transactions by financial institutions require an appraisal by a certified or licensed appraiser. The appraisal regulations apply to both commercial and residential transactions, however, the threshold above which an appraisal is required is different for residential transactions, commercial real estate transactions, and qualifying business loans as described in Part 323.3(a)(1),(5), and (13).

The appraisal should conform to the Uniform Standards of Professional Appraisal Practice (USAP) adopted by the Appraisal Standards Board of the Appraisal Foundation. For transactions that are otherwise exempt from appraisal requirements, an appropriate evaluation of the real property will be performed. However, prudent lending standards still require such loans and other real estate related transactions be supported by adequately prepared estimations of collateral value. An independent appraisal is one in which the appraiser is not involved in the loan.

The appraisal performed by an independent appraiser must reflect a value and an analysis as to how the value is determined. Any deviation from this policy will also be based on compliance with Part 323 of Federal Deposit Insurance Corporation Rules and Regulations. If a real estate loan is renewed, a new appraisal is not required if:

- (1) The borrower has performed satisfactorily according to the original terms.
- (2) No additional money has been advanced other than as previously agreed.
- (3) The credit standing of the borrower has not deteriorated.
- (4) There has been no significant deterioration in market conditions or physical aspects of the property that would threaten the collateral protection.

Part 323.3(b) of the FDIC Rules and Regulations requires appropriate evaluations for real estate-related transactions that do not require the services of a state certified or licensed appraiser.

In the event an appraisal is not required for a transaction involving an existing extension of credit, an evaluation may be obtained, provided that:

- (1) There has been no obvious and material change in market conditions of physical aspects of the property that threatens the adequacy of the institution's real estate collateral protection after the transaction, even with the advancement of new monies; or
- (2) There is no advancement of new monies, other than funds necessary to cover reasonable closing costs.

In the case of a BRC loan, an appraisal may be waived in accordance with BRC rules.

1.4 Environmental Risk

Loans to be secured by real estate must be carefully examined for possible environmental risk through an environmental review that will be completed prior to loan processing.

The WBC should focus on hazardous construction materials (e.g. lead paint, asbestos), hazardous waste storage sites, leaking drums, retention ponds, discolored vegetation, underground storage tanks, and adjacent properties.

Any evidence of environmental contamination will require a more detailed assessment; the results

of which may dictate the borrower remediate the hazardous waste before closing the loan. In addition, during the due diligence process prior to making the loan, the WBC's Loan Portfolio Manager should determine if the borrower shall execute warranties and indemnifications at the closing as to the property's environmental condition and proposed use.

A questionnaire is attached.

1.5 Repayment Terms

All loans should have a realistic repayment plan. The maturity of the loan should be related to the anticipated source of repayment, cash flow of the borrower, purpose of the loan, the useful life of the collateral and be consistent with State Statutes.

Collateral does not repay loans; cash flow repays loans. The collateral package provided as security should reflect the source of repayment. At all times, the collateral should be sufficient to adequately protect the commercial lender from a decline in market value. Substantial collateral does not alone justify an extension of credit.

1.6 Guaranty of Loans

It is the policy of the WBC that all loans to closely held companies will be guaranteed by the principals of the company. Where this requirement is waived, it must be substantiated by the financial strength of the company and documented in the credit file. Any deviation from this policy must have the prior approval of the Board.

1.7 Loan Authority

All loan requests under the Challenge Loan program are to be submitted to the Investments Committee, and ultimately to the Board for final approval.

All loan requests under the Business Ready Community program are to be submitted to the Investments Committee and ultimately to the Board for recommendation to the State Loan and Investment Board (SLIB) for final approval.

All presentations to the Board will include at a minimum the following information as applicable:

- (1) Borrower's name
- (2) Business/project description and purpose of the loan request
- (3) Amount of loan
- (4) Term of loan
- (5) Proposed interest rate
- (6) Economic development benefits to the State of Wyoming
- (7) Total repayment program
- (8) Financial information and analysis demonstrating an ability to repay the loan
- (9) Risks and mitigants
- (10) Proposed guaranty(s)
- (11) Proposed collateral
- (12) Value of collateral
- (13) Terms and conditions of the proposed loan agreement, including covenants

1.8 Underwriting Guidelines

The WBC may impose loan terms, conditions, and covenants to monitor loan performance and economic development. Examples of those terms, conditions, and covenants, which would be established on a loan-by-loan basis may include:

- (1) No dividends or other shareholder distributions, except for loans with S-Corporations and partnerships whereby income taxes are assessed at the shareholder level. Those distributions will require prior approval by the WBC.
- (2) Limitations on shareholder salaries and increases in shareholder salaries.
- (3) Restrictions on additional indebtedness, salary increases, capital expenditures.
- (4) Restrictions for lease payments for the use of property and equipment owned by affiliated entities.
- (5) Pre-established ratios and other specifically identified measurement requirements.
- (6) Periodic reports, including financial statements and other reports deemed necessary to monitor the operations of the business and the economic development impacts within the State of Wyoming.

Under the Challenge Loan programs, maximum loan to value shall not exceed 85%, unless otherwise specified, however a borrower may desire to finance 100% of the project cost and may provide additional collateral in lieu of cash down payment.

1.9 Loan Administration

The WBC shall prepare a credit application/memorandum to the credit file for each type of loan. The credit application/memorandum will be in writing and will cover the following points:

- (1) The credit worthiness of the borrower
- (2) The purpose of the loan
- (3) The economic development benefits for making the loan
- (4) Financial statement analysis to show an adequate source of repayment
- (5) Collateral/guarantor analysis to demonstrate adequate backup sources of repayment
- (6) Personal guarantees by corporate officers/shareholders if a closed corporation
- (7) An analysis of whether a business plan or pro-forma financial statements are required
- (8) Other information used to come to a decision on making the loan

A credit file shall be established and maintained for each borrower, which shall include in all cases the borrower's current financial statement, tax returns and the credit application/memorandum. Loan agreements should clearly identify the borrower's responsibility for providing future required information (e.g. audited financial statements, internal financial statements, tax returns, compliance with loan covenants, required UCC updates, etc.) and when such information is due to the WBC and/or servicing agent. The information needs and due dates will be compiled into a database that will be used to establish a tickler system to maintain compliance with this policy. The credit file will include copies of all documents and correspondence pertinent to each loan.

Loan administration may be delegated to a servicing agent approved by the Board. The contract with the servicing agent will specify those duties and responsibilities to be performed, including

reporting to the WBC and/or the Board on a frequent basis.

Minimum documentation for real estate loans shall include the promissory note, environmental check, a written recorded copy of the mortgage, Title Opinion or Title Insurance, a copy of the appraisal of the property, and an insurance certificate or binder insuring the property against damage and showing the WBC / or lead lender as loss payee.

Minimum documentation for loans secured by marketable equipment shall consist of the promissory note, a security agreement that can be supported by a financing statement. At least one of these documents must be filed with the appropriate authority. Documentation on loans made on the titled equipment shall include, in addition to the security agreement, recorded copies of the title showing the WBC / or lead lender as the secured party and an insurance certificate or binder insuring the property against damage and showing the WBC / or lead lender as loss payee.

All personnel shall take the utmost care in the security and safekeeping of loan documents. All promissory notes shall be kept in a secure fireproof location with a third-party servicing agent.

The WBC or its designee shall conduct loan review documentation on a continuing basis for all loans.

Interest due on loans is to be collected from borrowers according to the terms and conditions of the loan agreement and note.

1.10 Loan Review

Successful loan review systems have specified time frames for reviews, accountability through required reporting to the proper level of the organization and a consistently applied system.

The portfolio will be reviewed for credit quality and documentation requirements annually either by the Department of Audit, Division of Banking, or the Independent Auditors Financial Report. These external audits will be the loan review process until the portfolio grows to justify staff independent of the loan function to perform reviews.

1.11 Reserve for Loan Loss Policy

The WBC will implement the policies and procedures as a means of analyzing the adequacy of the loan loss allowance on an ongoing basis. The purpose of the analysis will be to identify the risks in the loan portfolio with the exception of BRC loans and assure the allowance is adequate should those risks become future losses. Items that should be considered when identifying such risks are listed in Appendix A to this chapter.

The adequacy of the allowance will be made at the end of each quarter and reports, as specified in this policy, of the analysis will be presented to the Board. The Board will determine if the reserve is adequate.

The reserve will be arrived at per the following:

• All loans that are delinquent (over 30 days past due) will be reviewed. A specific reserve will be allocated for each of these loans if the review warrants.

- There will be an additional unallocated reserve of one-half of one percent of the total portfolio balance.
- There will be a 10% reserve for Economic Disaster loans.

1.12 Loan Collections

The WBC has reasonably conservative loan polices designed to preclude delinquencies and losses in the loan portfolio. If polices are followed, the WBC should not experience an undue amount of collection problems. Successful collections and workouts depend on early identification of credit weaknesses so the relationship between loan collections and loan monitoring cannot be emphasized enough.

A 10-day notice in advance of maturity is mailed. Late notices are to be sent on the 10th day a note becomes delinquent. Contacts and collection efforts should be started on the 10th delinquent day. From that point forward, all remarks pertaining to the workout of the delinquent account should be dated with the day, month, and year the contact is made. All loans 30 days or more past due are required to be reported to the Board.

Late charges are not only a deterrent to late payment by the borrower but also compensate the WBC for the extra cost of collection and loss of use of the payment amount. It is the WBC's policy to collect all late charges and great selectivity will be exercised in making any exceptions. In addition, interest will be collected to the actual date of payment for loans paid after maturity. Once a decision has been made to call the loan, the following steps will be taken:

- (1) The WBC will consult with its attorney in all matters.
- (2) It is preferable that the note be past due when the note is called. If, while working a problem loan the note must be renewed, it should either be renewed as a demand note or it should contain an enforceable clause.
- (3) Once a decision has been made for demand of a note, a letter is sent which spells out the reasons the WBC is making demand. The WBC's policy is not to use demand letters as idle threats. The WBC does not send demand letters until it is ready to call the loan.
- (4) The collateral securing the loan must be protected. The WBC may take physical possession of the collateral early in the process or the WBC may take a physical inventory.
- (5) It is important that the WBC does not lose its guarantees by oversight during the liquidation process.

1.13 Renewals and Extensions

All requests for short-term deferrals or extensions may be considered.

All requests to renew loans shall adhere to the same process as the underwriting standards and documentation for the initial provision of credit.

The Board or its designee shall review all renewals, and these shall be treated as any other loan with respect to the Board's authority and approval. It is customary that if such requests are granted, that amendment fees are appropriate, as well as a potential change in interest rates and other terms. Potential problems will be immediately and appropriately dealt with. Renewals, deferments, and extensions shall not be used to defer a potential problem or loss to a later date.

It is important for the WBC to maintain its position in regards to the collateral; therefore, renewal or extension of a loan may be necessary to accomplish this objective. On any extension or renewal, a complete comment shall be placed in the credit file as to the nature of the extension or renewal, new interest rate, maturity date, etc.

1.14 Non-Accrual of Interest

The WBC will not accrue interest and report income in the WBC's financial statements when:

- (1) Any loan which is maintained on a cash basis because of the deterioration in the financial position of the borrower.
- (2) Any loan for which payment in full of interest or principal is not expected.
- (3) Any loan upon which principal or interest has been in default for a period of 90 days or more unless it is both well secured and in the process of collection.

From the perspective of the borrower's liability to the WBC, the loan will continue to accrue interest in accordance with the terms of the loan agreement.

A non-accrual loan may be restored to an accrual status when payments are current or when it otherwise becomes well secured and in the process of collection.

1.15 Loan Charge Off Procedures

It is the WBC's policy to charge-off those loans whose collectability is sufficiently questionable that the WBC can no longer justify showing the loan as an asset in its financial statements. These loans are charged-off by crediting the appropriate loan category and debiting the reserves for loan accounts. Charged-off loans must be approved by the Board prior to charging-off.

Collection efforts will continue on all charge-off loans unless the balance is determined uncollectable due to bankruptcy, complete liquidation and settlement agreement, death or any other occurrence, which will render the balance uncollectable.

A report will be presented annually to the Board.

1.16 Reporting Requirements

Reporting requirements to the Board or its designee with respect to the loan portfolio will include the following:

- (1) Listing of loans 30 days or more past due provided at each Board meeting.
- (2) Computation of allowance for loan losses provided at each Board meeting.
- (3) Report of examination by the Department of Audit, Division of Banking will be presented at the first Board meeting following the receipt of the report.
- (4) Report as required by W.S. 9-12-306(b) to the Board prior to July of each year.

CHALLENGE LOAN POLICY

2.1 Purpose

To provide loan policies and procedures that are uniform and for quality control to ensure good, consistent service.

2.2 Scope

The WBC Board of Directors and any staff that has oversight of the Challenge Loan portfolio or loan administration responsibilities. Please refer to the Wyoming Partnership Challenge Loan Program Rules for detailed requirements, procedures, and definitions.

2.3 Loan Policy

The basic loan policy of the WBC will be to service the borrowing needs of entities that enhance the economic development of the State of Wyoming on a sound and prudent basis that is beneficial to the people of Wyoming.

The Board, in discharging its duty, will ensure that loans in the WBC's portfolio are made on a sound and collectable basis promoting economic development within statutory authorization.

2.4 Types of Loans

The types of loans and financing the WBC will provide to entities in promoting economic development are as follows:

50-50 Financing Program Loans

The 50/50 Financing Program, in participation with a Bank, is designed to help businesses requesting debt financing get to their next milestone. This program, as set forth by W.S. 9-12-301 (a)(vi), is typically used for business expansion. The benefits are a blended interest rate that benefits the business, as well as shared risk or increased lending capacity that could be a benefit to a Bank.

- WBC max participation is \$2,500,000 or 50% of total project costs, whichever is less. The business must contribute 15% or more of the total project costs.
- Maximum repayment term is not to exceed 10 years. Term may be extended and amortized up to 25 years if approved by the WBC board of directors.
- Interest rate is set at a minimum of 4% and there is a minimum loan origination fee of 1%
- Eligible use of funds is working capital, equipment, inventory, real estate, and other fixed assets.

Large Loan Program

The Large Project Loan Program is specifically designed for large economic impact projects. These projects should have a high likelihood of completion, create jobs, increase sales and property taxes, and demonstrate a significant increase in the assessed valuation of the county or counties in which the project is located. The amount a business can qualify for is based on economic impact modeling over 3 years.

- Total loan amount shall not exceed twenty-five million dollars (\$25,000,000) and project costs shall not be less than five million dollars (\$5,000,000).
- Loan shall not exceed 75% loan-to-value (LTV) or loan-to cost (LTC) ratio (whichever is less).
- Maximum term and amortization schedule is project dependent.
- Interest rate is set at a minimum of 4% and there is a minimum loan origination fee of 1%.
- Eligible use of funds is working capital, equipment, inventory, real estate, and other fixed assets.

Economic Disaster Loans

Economic disaster loans will be granted only after an economic disaster has been declared, as defined by law and adopted rules.

- The WBC can only approve loans to applicants with a reasonable ability to repay the loan and other obligations from earnings. The terms of each loan are established in accordance with each borrower's ability to repay but shall not exceed 120 months.
- As required by law, the interest rate for each loan is based on the WBC's determination of whether each applicant has the ability to repay. Substantial economic injury is the inability of a business to meet its obligations as they mature and to pay its ordinary and necessary operating expenses.
- Due to the nature of these loans, ongoing financial information from the borrower(s) may not be required if deemed prudent by WBC staff. This program has historically been used for agricultural needs/losses and many borrowers may have existing debt instruments with financial institutions. This loan is designed to help in the case of an emergency for a borrower and not interfere with the ongoing operations of the business/borrower and/or the financial institution.

Natural gas fueling infrastructure loans

Natural gas fueling infrastructure loans are direct loans from the challenge loan program for natural gas fueling infrastructure.

- Funds must be used for the costs of the engineering, design, real property, equipment, and labor necessary to install a functioning natural gas fueling station.
- Payment terms consist of no interest or principal payments due for the first two (2) years of the term loan. All deferred interest during the first two (2) years of the term loan shall accrue to the principal balance.
- Loans are to be amortized over a period not to exceed 240 months. Loans should not exceed 75% of the total costs of land, building and equipment or one million dollars (\$1,000,000), whichever is less.

Partnership Challenge Loan

The Partnership Challenge Loan is a means of financing to be used to assist any community or state development organization to build, acquire, purchase, or complete projects for the purpose of economic or community development purposes within the state of Wyoming.

• Eligible applicants are communities, EDOs, SDOs, and Joint Powers Boards.

- Total loan amount shall not exceed one million dollars (\$1,000,000) to a community development organization. Total loan amount shall not exceed three million five hundred thousand dollars (\$3,500,000) to a state development organization.
- The community, EDO, SDO, or Joint Powers Boards shall contribute no less than 20% of a partnership challenge loan. Loan shall not exceed 80% Loan-to-Value (Must have collateral).
- Maximum repayment term is not to exceed 10 years. Term may be extended and amortized up to 25 years if approved by the WBC board of directors.
- Interest rate is set at a minimum of 4% and there is a minimum loan origination fee of 1%.

Succession Loans

Keeping Wyoming businesses running is the goal of the Succession Loan Program. As it is set forth in W.S. 9-12-301 (a)(xii) the Succession Financing Loan is designed to help transition ownership of an existing Wyoming business. The Succession Loan in participation with a bank would provide financing for the purchase of a business that is at least 7 years old. The WBC portion of the loan would be used to fill the unsecured or "blue sky" portion of a purchase helping to enable Wyoming Businesses to continue in Wyoming.

- Eligible applicants are new business owners that are purchasing a Wyoming Business that has been around for the last seven years. Where the new owners are requesting debt financing from a bank.
- Maximum WBC participation is the lesser of \$500,000 or 50% of the total loan amount.
- Maximum repayment term is not to exceed 10 years.
- Interest rate is set at a minimum of 4% and there is a minimum loan origination fee of 1%.
- Use of funds is strictly for the purchase of the Wyoming business that has been around for the last seven years.

Contract Loan

This Contract Loan program was designed to help Wyoming businesses have a way to take on larger orders by financing the raw materials. Contract Financing Loans provide liquidity to businesses and the business uses the proceeds of the contract and raw materials as collateral for the financing. This program was set forth by W.S. 9-12-301 (a)(xi) helping Wyoming businesses scale and compete for contracts.

- Eligible applicants are businesses that are requesting financing to acquire raw materials to fulfill a large contract.
- \$200,000 is the maximum loan amount.
- Maximum repayment term not to exceed two (2) years unless this provision is specifically waived by a motion of the WBC Board of Directors and new loan term is established in writing.
- Business shall contribute no less than 10% of total cost to acquire raw materials used in contract.
- WBC must be listed as co-payee on contract alongside the borrower.

- Upon payment of contract from payor, borrower shall pay off principal & interest within 15 calendar days.
- Interest rate is set at a minimum of 4% and there is a minimum loan origination fee of 1%.
- Use of funds is strictly for the acquisition of raw materials to fulfill contractual obligations.

Main Street Loans

The mission of the main street loan program is to help maintain historical buildings. WBC participates with a commercial lender to provide financing for building improvements to maintain the structure's historical character.

- Maximum WBC participation is 75% of the proposed total cost or \$100,000, whichever is less.
- Interest rate is set at a minimum of 4% and there is a minimum loan origination fee of 1%.
- Maximum repayment term is not to exceed 10 years. Term may be extended and amortized up to 25 years if approved by the WBC board of directors.
- Use of funds is for the rehab and remodeling of main street buildings with the intent to preserve the historical character.

Future Investment or Loan Programs

Modifications will be made to the policy in this chapter as necessary to reflect changes made to existing state statute.

BUSINESS READY COMMUNITY LOAN POLICY

3.1 Purpose

To provide loan policies and procedures that are uniform and for quality control to ensure good, consistent service.

3.2 Scope

The WBC Board of Directors and any staff that has oversight of the Business Ready Community (BRC) Loan portfolio or loan administration responsibilities. Please refer to the Business Ready Community Grant and Loan Program Rules for detailed requirements, procedures, and definitions.

3.3 Loan Policy

A BRC loan may be made to fund a portion of any project that is an eligible activity. A BRC loan can be used in conjunction with a BRC grant. In no event shall a loan be made to pay off or refinance an existing loan.

The Board, in discharging its duty, will ensure that loans in the WBC's portfolio are made on a sound and collectable basis promoting economic development within statutory authorization.

3.4 Additional Information

Applicant shall supply to the Wyoming Business Council any relevant ongoing or new information that arises any time after applicant's initial submission of the above information which may influence or bear upon the review of the proposed loan, including without limitation, new or altered financing arrangements, statutory, regulatory or rule changes which may impact applicant's project or operations or the proposal thereof, or any other changes.

In addition to information in the project application, the Wyoming Business Council may ask for additional information necessary for the Wyoming Business Council to conduct its due diligence in review of the application. Applicants shall respond to such requests in a timely manner with complete and current information.

For interest rate, term and fee specifics please refer to the Business Ready Community Grant and Loan Program Rules.

3.5 Collateral

Please refer to the Business Ready Community Grant and Loan Program Rules for detailed requirements and procedures. In addition, the following must be adhered to:

- (1) All loan projects that create a lease or sales revenue based asset must be secured.
- (2) Preferred collateral must be held in the name of the public borrower. Underlying collateral (e.g. notes, leases) shall be assigned to the WBC.
- (3) Permanent real estate loans shall be secured preferably by first mortgages on improved business or commercial properties.

INDICATING TROUBLE

Problem and Work-Out Loans

The following list represents only a small portion of the many causes of borrowers' financial problems and many of these problems exist in perfectly good companies. One item by itself does not necessarily mean a company is in trouble; however, a combination of these symptoms may indicate a problem loan, either now or in the future.

These symptoms have been labeled as non-financial because they do not appear directly on the borrower's financial statement, but their effects too often do. They often involve the expenditure of money, and many are quasi-financial in nature.

(1) Inability to meet commitments on schedule:

These may involve production, delivery, or contract completion. The results can be canceled orders, returned goods, penalties assessed, and payments held back. These conditions often arise from overselling or poor planning. They are a direct reflection on the quality of a company's management.

(2) Recurrence of problems presumed to have been solved:

Personnel problems rank high on the list here. A constant turnover of bookkeepers or office managers, each expected to correct the shortcomings of his predecessor, is a good example. Too often this indicates highly questionable management practices and a lack of executive stability.

(3) Lack of functional planning:

Forecasts for both short and long-range operations are non-existent, vague, or downright unreliable. What actually occurs seldom bears any practical relationship to what was predicted. All plans are based on the needs of the moment.

(4) Capital stagnation:

Owners are unwilling to supply needed additional capital on either a temporary or permanent basis. Profits are regularly drained off. Owners have a set limit on risk capital and will inject no more funds in the business. Creditors are expected to assume all risks above an established capital base. Often owners are unwilling to pay the price (in the form of money or loss of control) for new capital funds.

(5) Poor financial housekeeping practices:

Owners are unwilling to pay the price for quality auditing reports or functional bookkeeping systems. Procedures to protect assets such as cash and inventories are missing. Maintenance of books and ledgers is sloppy, and posting schedules are erratic.

(6) Loss of senior management or other staff:

Loss of senior management and/or high employee turnover.

EXAMINATION SCOPE

The purpose of this examination is to review loans funded by the Wyoming Business Council (WBC) under the Wyoming Partnership Challenge Loan Program (Program) and the credit administration of those loans. Loans made under the Program were examined for compliance with statutes and regulations as well as prudent underwriting standards. Additionally, loans were reviewed for proper documentation and compliance with WBC's loan policy.

Wyoming Statute (W.S.) 9-12-306 mandates the examination of the Program by the Department of Audit. The Director of the State of Wyoming's Department of Audit or designee is required to annually examine loans made under the Program and submit a Report of Examination to the Governor, the Legislature, and the WBC. Per the Program's Rules and Regulations a portfolio report of all loans as of December 31 is to be submitted to the State Banking Commissioner no later than January 15. The State Banking Commissioner is then required to complete an audit of the loan portfolio on or before April 1, with a completed audit report presented to the WBC on or before May 1.

This examination was completed on March 29, 2023. The loan review included loans made under the Partnership Challenge Loan Program (Development, Bridge, and Guarantee Loan Participations), the Natural Gas Fueling Infrastructure Loan, and Economic Disaster Loans. This equated to one Bridge loan, 18 Economic Disaster Loans, and one Natural Gas Fueling Infrastructure loan, for a total of 20 loans reviewed or 9.30 percent of the portfolio. Community Development Loans are not considered part of the portfolio and are not part of the Division of Banking's review.

PROGRAM OVERVIEW

Article 3 of the Wyoming Economic Development Act

The Program is governed by W.S. 9-12-301 through 9-12-307. The Program is funded through the Economic Development Enterprise Fund Account and is administered by the WBC. The WBC has adopted the Rules and Regulations (Rules) of the Program in order to implement Article 3. These Rules include Chapter 2, Wyoming Partnership Challenge Loan Program (Loans to Development Organizations, Bridge Financing, and Guarantee Loan Participations); Chapter 4, Economic Disaster Loans; Chapter 3, 50/50 Financing Program; Chapter 7, Wyoming Main Street Loan Participation; and Chapter 8, Natural Gas Fueling Infrastructure Loans.

The Bridge Financing loans and Loan Guarantee Program have been consolidated under Chapter 3 of the Rules by legislation passed during the 2022 legislative session and is now referred to as the 50/50 Financing Program. The WBC and has not made any new loans under this program and all Bridge Loans reviewed during this examination were made prior to this legislative change.

Chapter 2 – Wyoming Partnership Challenge Loan Program

Loans made under Chapter 2 of the WBC's Rules consist of loans made to community or state development organizations, loans for bridge financing, and guarantee loan participations. As

defined by statutes, a community development organization is a group of private citizens organized as a business entity for the purpose of providing financing for new, existing, or expanding businesses and other economic or community development purposes throughout Wyoming. A state development organization is a corporation with the authority to provide financing for new, existing, or expanding businesses and to fulfill other economic or community development purposes throughout the state. Bridge financing is for projects where a commercial lender makes the loan and WBC shares in the loan. Guarantee loan participations are for projects where a bank has a Federal guaranteed loan to guarantee repayment of a loan to a business.

The total amount of loans and loan commitments made to a single community development organization is limited to \$1,000,000. Total loans and loan commitments made to state development organizations are limited to \$3,500,000.

Loans 30 Days or More Past Due	\$0	\$0	\$0

At year-end 2022, there were three Challenge Loans made pursuant to Chapter 2 compared to four loans at year-end 2021, resulting in a decrease of \$1,039,315. The Challenge Loans include three Bridge Loans totaling \$5,458,410. The credit made to DBJJDM Enterprises has an outstanding balance of \$4,336,838. This loan is not a part of the Challenge Loan program but it was a legislative decision to use the program's funds to fund the loan. Since this loan is not officially a part of the Challenge Loan program it was not a part of our review but the balance is included in the table above.

Chapter 4 – Economic Disaster Loans

Loans made under Chapter 4 of the Rules and Regulations are intended for businesses that have been adversely affected by an economic disaster. The statutes define an economic disaster as an event occurring in Wyoming that has an economic impact with total lost revenues to impacted businesses in a twelve calendar-month period of at least \$4,000,000, or an economic impact with total lost revenues of impacted businesses in four or less counties in a 12 calendar-month period of at least \$1,000,000.

Number of Loans Outstanding	34	36	37
Loans 30 Days or More Past Due	\$338,914	\$311,959	\$484,950

At year-end 2022, there was a total of 85 Economic Disaster Loans outstanding. Economic Disaster Loans consists partially of 51 beet loans that have existed since year-end 2016. Additionally, there are 34 Economic Disaster Loans that originated in 2020 all of which were related to the 2019 irrigation canal collapse on the Gering-Fort Laramie/Goshen Irrigation District canal system. Currently, the total amount of loans 30 days or more past due is \$338,914. This amount consists of four loans, Cody Easum, Eden Farms, Brandy Pettet, and Ryan Riggs. Since the previous examination, Edward Lay was approved to be fully charged off in the amount of \$107,892.00.

Chapter 3 – 50/50 Financing Program

Chapter 3 is for loan guarantees in which the WBC guarantees a portion of a bank loan made to a business. Such loan guarantees are not to exceed \$2,500,000 or 50 percent of total project costs, whichever is less. The WBC has not guaranteed any loans under this program.

Chapter 7 – Wyoming Main Street Loan Participation

Chapter 7 is for loans in which the WBC participates with a commercial lender that has made a loan to a business for building improvements to maintain the structure's historical character. The maximum participation is limited to 75 percent of the loan or \$100,000, whichever is less.

At year-end 2022, there were no loans funded under this program.

Chapter 8 – Natural Gas Fueling Infrastructure Loans

Loans made under Chapter 8 of the Rules and Regulations are intended for Natural Gas Fueling Infrastructure (NGFI). As defined by statutes, a NGFI Loan is for the costs of the engineering, design, real property, equipment, and labor necessary to install a functioning natural gas filling station to fuel motor vehicles which operate on natural gas as transportation fuel. Loans issued under this chapter may not exceed 75 percent of the total project cost or \$1,000,000, whichever is less.

Loans 30 Days or More Past Due	\$0	\$0	\$0

The single loan has decreased by \$10,241 from the prior year due to normal payments. The business has posted sustained losses for the prior five years to this examination. However, the business displays positive cash flows for the year 2022 and is being closely monitored by WBC

staff.

Administration

The Program is administered by the Business and Industry Division of the WBC, and it is supervised by the Loan Portfolio Manager, John Wendling. Mr. Wendling was named the Loan Portfolio Manager in February 2023.

Servicing

The WBC contracts with Markee Escrow Services, Inc., of Cheyenne, Wyoming for servicing of the loan portfolio.

FINDINGS

Overall, the WBC is administering the loans it has funded under the Program in a satisfactory manner. WBC staff completes a cash flow analysis on loans as new financial information is obtained as well as on new loan requests.

Borrower Performance

Generally, loans funded under the Program continue to be financially sound. A loan for Ryan Riggs was originated in March of 2020 as part of the Economic Disaster Loan declaration for Goshen County, Wyoming. The first payment was due January 1, 2021, and a demand for payment letter was sent by WBC on July 30, 2021. A site visit was attempted by WBC on November 16, 2021, and they were unable to speak to the borrower. Ryan Riggs reached out to WBC in 2022 inquiring where to send a payment. However, WBC has not yet received any payment. This credit is fully reserved for in the loan loss reserve account.

A loan for Cody Easum was originated in November of 2017 as part of the Economic Disaster Loan declaration for the Wyoming Sugar Company. Multiple attempts have been made by both WBC and the servicer to no avail. A certified demand letter was mailed in April, 2021 and again in July, 2021. A physical visit was performed on October 26, 2021 where a payment coupon was handed to the borrower for both the past due and next payment due January 1, 2022. The borrower pledged he would make an effort to do so. The last payment received was on January 1, 2020. This credit is fully reserved for in the loan loss reserve account. WBC is in discussion of potentially charging this credit off.

A loan for Eden Farms was originated in January of 2018 as part of the Economic Disaster Loan declaration for the Wyoming Sugar Company. The borrower is now deceased and the borrower's wife is working with WBC to resolve the debt. Much of the farm assets are claimed on other loans. The borrower's wife will continue to farm the land and harvest, and made a partial payment earlier this year. This credit is fully reserved for in the loan loss reserve account.

A loan for Brandy Pettet was originated in November of 2017 as part of the Economic Disaster Loan declaration for the Wyoming Sugar Company. Multiple late notices have been sent by WBC

and the servicer since June of 2022 to no avail. The borrower has a history of late payments and WBC will continue to monitor and attempt to contact the borrower going forward.

Economic Disaster Loan Financial Documentation Requirements

There are two loan groups that fall under the economic disaster loan program. The first are loans that were approved and funded for the economic emergency declaration for beet farmers in the Big Horn basin that grow for either the Wyoming Sugar Company (Worland) or the Western Sugar Cooperative (Lovell). These are one-time emergency loans and the WBC has not historically continued collecting financial information on these loans after origination. These loans have a tenyear repayment period. The loans are essentially unsecured as the crop from 2016, which is what the loan is filed upon, also serves as collateral. These loans are considered more "character" loans and have performed well, historically. The second group of loans that was approved and funded under the economic emergency declaration were for farmers and ranchers in the Gering-Fort Laramie/Goshen Irrigation District canal system, due to the irrigation canal collapse in 2019 which are referred to as "Hay" loans. These loans have a nine-year repayment period. The loans are also essentially unsecured as the crop from 2019, which is what the loan is filed upon, also serves as collateral.

Loans with Documentation Exceptions

Loan file documentation exceptions are measured by dividing the dollar amount of exceptions found by the total volume of loans reviewed. The table below details the dollar amounts of documentation exceptions cited at this examination. There were no documentation exceptions noted in our review.

Loan File Documentation Ex	Loan File Documentation Exceptions									
Category	Amount (000)	Percentage								
All Exceptions – Initial All Exceptions – After Corrections	\$0 \$0	0% 0%								
Financial Statement Exceptions – Initial Financial Statement Exceptions – After Corrections	\$0 \$0	0% 0%
