- (iii) <u>Builder's Risk Insurance</u>. Builder's all risk insurance, through a company lawfully authorized to do business in the State of Wyoming, protecting the interests of the Council and subrecipient s of all tiers against loss as specified below, through the date of Final Completion or until final payment has been made and no person or entity other than the Owner has an insurable interest in the property:
 - (a) The policy shall be in the amount of the initial Contract Sum, plus the value of subsequent contract modifications and costs of material supplied or installed by others, and shall at all times provide coverage for 100% of the insurable value of the Work, including Subrecipient's change orders and any Council furnished work. Unless otherwise agreed, all monies received due to a covered loss shall be first applied to rebuilding or repairing the destroyed or injured Work.
- (e) The Subrecipient shall be solely responsible for any required notice to or consent of the insurer providing the Builder's Risk coverage regarding a) a covered event or occurrence and b) occupancy of the Work, or a portion thereof, by the Council.
- (f) The policy shall not cover any Subrecipient's equipment, including, but not limited to, machinery, tools, equipment, or other personal property owned, rented, or used by the Subrecipient or Subcontractors in the performance of their work on the Work, which will not become a part of the Work to be accepted by the Council.

ATTACHMENT A

SCOPE OF WORK

Task 1: Assist WBC staff with post-award services, such as administrative support, programmatic reporting, and support for audits

The CTC team are prepared to continue supporting the State of Wyoming and its CPF program, and will deliver the needed grant advisory and oversight, compliance, and reporting services, as directed by the WBC.

Based on our understanding of the Treasury ARPA CPF program, our knowledge of CPF reporting requirements, and our expertise in program management and project management related to broadband infrastructure initiatives, we will provide the following services to the Wyoming Business Council, as directed, and through the period of performance and final reporting for the ARPA CPF Program:

- Develop administrative processes, policies, procedures, budgets, and other documents needed to meet federal regulations
- Monitor sub-grantee project implementation, verify milestones, help oversee modifications to plans (as needed), and oversee project and fiscal accountability
- Conduct preliminary evaluation of network designs and technical drawings by experienced staff to
 ensure sub-grantee plans align with program requirements and grant awards, resulting in an
 approved design for each project
- Collect data from sub-grantees related to written policies and procedures, written standards of conduct, risk-based due diligence, risk-based compliance monitoring, and record maintenance and retention required under CPF program guidelines
- Develop appropriate documentation to demonstrate WBC compliance with CPF program guidelines
- Provide oversight and guidance to sub-grantees to monitor compliance, including risk assessment and evaluation of sub-grantee controls, as required
- Prepare and review sub-grantee technical and financial documentation, including network designs, invoices, requests for reimbursement, and program and financial reports
- Evaluate invoices and requests for reimbursement to confirm all materials are complete, costs are
 eligible and allocable, and supporting documents are available to support federal review and audits,
 as needed
- Assist with packaging materials and applying for drawdown requests
- Establish and implement metrics and reporting protocols to streamline sub-grantee reporting while adhering to reporting obligations, monitoring compliance, and enabling sub-award administration
- Support requirements to roll-up sub-grantee reports to meet Wyoming's overall ARPA CPF

reporting obligations, such as the quarterly Treasury 1A report, location reporting, and speed and pricing reporting required from sub-grantees at closeout; CTC will coordinate with state accounting staff and contractors to submit reports in a thorough and timely fashion

Task 2: Perform network inspection review and program closeout services

Recognizing that the WBC will be both a grantee in receipt of federal funds and a grantor that, in turn, expends those funds via grant agreements with sub-grantees, our team will develop an outline of the resources and steps necessary for the State of Wyoming to meet its program closeout obligations in both roles.

Based on our experience and analysis, CTC will develop the Connect Wyoming CPF Program Test Requirements and Closeout Process, supporting the WBC in its final set of grant administration and compliance tasks related to the grant closeout process, including evaluation of sub-grantees' closeout activities; ensuring each project's compliance with federal requirements; and developing final reporting to the Treasury.

Using the agreed-upon evaluation criteria, CTC will support the examination of the deployed networks, as directed by the WBC, to confirm the successful completion of grant-funded construction by each subgrantee. Meeting this obligation will likely require reviewing as-built maps, inspecting portions of the new infrastructure, and reviewing the sub-grantees' test results.

If it is determined that further verification is needed, CTC will conduct technical audits of sub-grantees as necessary. Each audit may include the following activities:

- Financial review of all sub-grant recipients' invoices on a per-project and per-invoice basis to ensure eligibility and completeness of supporting documentation and assistance with budget revisions as needed to ensure proper cost categories and rates
- Assisting with review of reports submitted by sub-grant recipients, including tracking and reporting to the WBC on performance of sub-grant recipients
- As-built review and field verification of sub-grant recipient's construction progress, verification that construction inspections were completed, and confirmation that results align with grant requirements and the approved design

Our analysts will support the WBC as it performs closeout tasks, as well—potentially including reviews of budget statements, evaluation of final reimbursement requests, and certifying project completion from a budgetary standpoint.

Proposed fees

CTC will perform the tasks described in this proposal for a not-to-exceed total budget of nine hundred thousand dollars (\$900,000.00). CTC will invoice WBC each month for hours incurred in the performance of Tasks 1 and 2 at a blended rate of three hundred dollars (\$300.00) per hour. The table below presents estimated hours by task. CTC reserves the right to reallocate hours across tasks as needed and without prior approval. If additional funding is required, CTC will prepare a written request for additional funding.

For your planning purposes, we estimate the following effort:

Task	Estimated Hours	Estimated Total
Task 1:		
Develop administrative processes	200	\$60,000
Monitor award implementation	600	\$180,000
Data collection	300	\$90,000
Develop compliance documentation	300	\$90,000
Compliance oversight support	800	\$240,000
Drawdown support	200	\$60,000
Establish reporting protocols	100	\$30,000
Task 2:		
Award closeout services	500	\$150,000

As engineers and analysts with experience in the full lifecycle of broadband deployment projects, from high-level planning to construction-ready drawings, and from construction oversight to final testing and quality assurance, we are confident our team will be able to provide services as needed with reasonable notice and will be able to complete assigned tasks on an agreed-upon work plan schedule. We note that CTC estimates rely on the current landscape as we now understand it and could change as the program develops.

Credit Memorandum

Applicant: Little Horn State Bank (Sheridan, WY)

Client: BH, Inc dba Britz & Company

1858 Coffeen Avenue Sheridan, WY 82801

Date: July 31, 2024

Purpose: Business 50/50 Loan for Large Equipment Purchase

Proposal:

Little Horn State Bank, located in Sheridan, WY has requested the Wyoming Business Council (WBC) to participate under the "50/50 Financing" provision of the Wyoming Partnership Challenge Loan program to provide a term loan to Britz & Company. William and Tamera Britz, owners and operators, are in the process of relocating all their operations to Sheridan, Wyoming. The proposed loan would be used for the long-term financing on the purchase of a new Trumpf Tube Laser CNC machine. The Loan will be backed by the equipment and personal guarantees of the Britz's. WBC's participation will be five hundred thousand dollars (\$500,000) or 50% of the final total loan.

	Request
Total Loan	\$1,000,000.00
WBC Portion	\$500,000 (50%)
Amount Refinanced	\$0
Collateral	Equipment: \$1,200,000 (83.3% LTV)
Loan Fee	\$5,000.00 (1%)
WBC Interest Rate	5.25%
Adjustment Time	Fixed
Blended Interest Rate	6.60%
Loan Term	7 Years Fully Amortized
Payment Frequency	Monthly
Guarantor	Willam & Tamera Britz

Project:

Britz & Company was founded in Texas in 1991 by William Britz Senior and moved to Wheatland, Wyoming in 1993 and recently relocated to Sheridan, Wyoming. The company designs, develops, manufactures, and installs animal housing systems, environmentally controlled enclosures, and care products for the biomedical research industry. Mr. Britz Sr. retired 20 years ago and turned over operations to his son William Britz Jr. and his wife Tamera. The company has leased a facility in Sheridan, Wyoming and has relocated its manufacturing operations there.

They currently employ 50 employees with 20 of them now in Sheridan. They plan to move all operations to Sheridan within the next two years. The business is currently operated independently as a Wyoming company even though it previously sold 70% of its equity to Techniplast, a family-owned Italian company who similarly manufactures laboratory animal equipment, in October of 2023.

The WBC has been working with Patrick Schilling, Senior Vice President of Little Horn State Bank, to help structure this deal. The lead bank is lending according to their loan policy, the borrower is submitting a down payment, and the WBC is partnering in accordance with the guidelines outlined in the 50/50 Loan program.

Cash Flow:

Based on the historical business and personal financials obtained from the lead bank, Britz & Co. exhibits significant capacity to service the proposed debt with a DSCR of 6.78 assuming the bank's interest amount without the WBC's participation. The cash flow will be stronger/better when the interest rate is blended with the WBC's portion of the loan to 7.08 and will improve the cash flow of the company as they continue to grow and finalize moving all operations to Sheridan. This blended rate will save the company debt service on the monthly payments to Little Horn State Bank in the amount of (approx.) \$655; totaling \$55,005 over life of the loan.

Credit reports were submitted to the WBC from the lead bank and all accounts are current and paying as agreed.

Bank Risk Rating:

The loan is presented as a pass credit with Little Horn State Bank, based on historical cash flow, guarantor support, and limited liabilities.

The net available balance in the Economic Development Fund is \$13,946,209.

Recommendation:

Staff recommends that the Board of Directors of the Wyoming Business Council approve the loan participation in the amount of \$500,000.00 (five hundred thousand dollars and 00/100 cents) as presented in this Credit Memorandum. This participation will be with Little Horn State Bank in Sheridan, WY as the lead bank. The loan recipient will be BH, Inc dba Britz and Company.

Respectfully submitted, John Wendling Loan Portfolio Manager
